## San Francisco Company seeks Senior Software Engineers

H1B Visa and Green Card Sponsorship, and Relocation Assistance, Provided

We want highly intelligent people with creative thinking and a very strong sense of work ethic; their demonstrated skills and analytical talent are the metrics by which they will be measured.

Our engineers have come from a number of different countries, so the candidate must be able to function in the common language, English — no need to be eloquent in prose and poem: just to be able to propose and defend their ideas, and participate in algorithm development and code architecture with other engineers.

If you roughly match the following traits, and are in want of a new challenge, please send your resume in PDF, preferably, to the email address listed in the header above, citing job code **EU-DE-C06**.

### Required:

- Degree: Bachelor, Master, Dipl. Inform., Dipl. Ing. or equivalent and at least 4 years of work experience
- 3 years experience dealing with middleware and/or enterprise applications in Java

### Desired:

- Prior start-up experience
- Strong database experience
- Demonstrated ability to develop algorithms for solving complex problems
- Development experience with web-based applications using J2EE technologies

[the brief company sell](#)

Cataphora is an award winning software company providing technology and services for high end litigations and investigations. Its customers include Fortune 500 companies, governmental agencies, and top American law firms. We pride ourselves on having been funded from the start entirely by revenues, with no venture capital investment.

At Cataphora, your creativity and versatility will be focused on a wide variety of software development challenges and developing cutting-edge algorithms for analyzing very large datasets. We are more than 80 people strong, and continue to grow our employee-owned San Francisco Bay area company by providing superior technology to meet the needs of our customers. Current open positions can be viewed at <http://www.cataphora.com/contact/careers.php> though we will hire well qualified people regardless of a pre-existing requisite.
